Specification

Measurement

Dimensions (mm)	3,685 x 1,220 x 2,210
Capacity	12,500m ² /h
Fuel Type	Diesel
Torque	1,800 RPM
Weight	1,725kg
Fuel Capacity	50L

ACCESSORIES

EGHOLM CITY RANGER 3070

Bluetooth Radio

Bluetooth FM radio with USB port and SD slot. Headset included.

Radio DAB+

DAB+ radio with bluetooth including headset.

Anti-Corrosion Treatment

The anti-corrosion treatment of the basic machine is recommended when operating in the winter season.

ACCESSORIES

EGHOLM CITY RANGER 3070

Wide-Base Tyres

Type M+S. Improve the operator and driving comfort, whilst also reducing the ground pressure. With wide-base tires the width of the basic machine is 1280 mm.

Grass/Turf Tyres

Significant reduction of ground pressure gives access to sensitive areas and improves comfort. It is optimal for soft conditions due to a high traction - e.g. golf and football pitches. It also has good performance in snowy conditions.

Winter Tyres with Snow Chains

Type M+S. On snowy and icy roads, the grip of the utility machine is significantly impaired. When you use snow chains, you increase the grip of the machine and thereby increase safety.

ACCESSORIES

EGHOLM CITY RANGER 3070

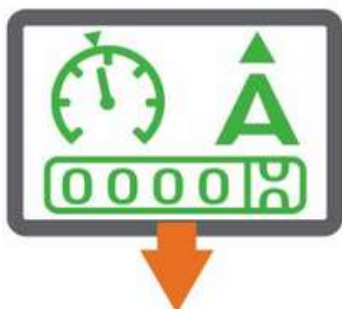

High-End Comfort Seat

The market leading ISRI comfort seat ensures good operator comfort and an ergonomic working position for long working days. Included: Air suspension adjusting to operator weight, heated seat, adjustable lumbar support, neck and back rest, armrest and 3 point seat belt.

Heated Side View Mirrors

A convenient way to clear away ice, snow and dew from your mirrors.

Comfort Package

Cruise control improves the driving comfort and the operator can focus more on operation and steering. It is easy to keep track of the daily or weekly operating hours with the trip meter. With the auto-lift function you can select if the machine should automatically lift the attachment when reversing.

ACCESSORIES

EGHOLM CITY RANGER 3070

Working Lights - Top

Extra LED lights mounted just below the standard lights of the machine. These lights provide a clear overview of surroundings and obstacles.

Working Lights - Middle

The middle LED working lights provides an excellent view of the attachment, as well as close surroundings and confined spaces. All working lights are ideal for night operation.

Beacon & Rear Working Light

Beacon and rear working light can be mounted in either left and/or right side of the machine. The rotating warning light alerts about the presence of the machine at a 360 degree angle. Beacon and rear working light come in set.

ACCESSORIES

EGHOLM CITY RANGER 3070

Rear View Camera & Colour Screen

Rear view camera with a colour screen ensures good visibility in confined spaces, where the operated path can be inspected. It also improves safety in pedestrian zones.

Suction Mouth Camera

The suction mouth camera allows the operator to see whether material accumulates in front of the suction mouth and, thus, allows the operator to adjust the speed and suction of the machine accordingly. Acquiring the suction mouth camera is only possible when selecting the rear view camera as an optional purchase.

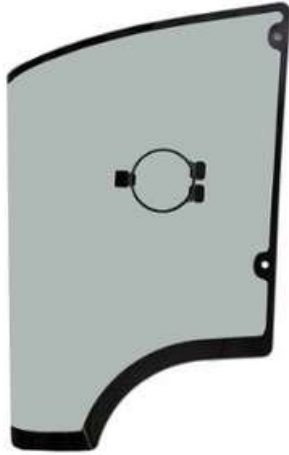

Reversing Alarm

An alarm when reversing increases the safety in city centres and pedestrian areas. Type: BU1.

ACCESSORIES

EGHOLM CITY RANGER 3070

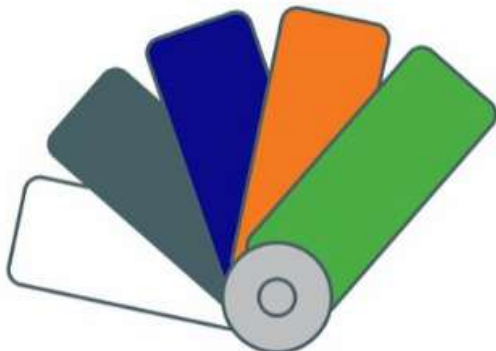

Door with Window

Left or right door with window enables easy access to e.g. the card reader of car park barriers.

Tip for Trailer

Hydraulic connections for the use of trailer tip etc.

Colour Changes

The standard green colour can be changed to the desired RAL colour for your specific needs.

ATTACHMENTS

EGHOLM CITY RANGER 3070

Suction Sweeper (Poly Brushes)

Complete suction sweeper with poly brushes unit offering professional sweeping performance. Recirculation water system included.

Suction Sweeper (Poly/Steel Brushes)

Complete suction sweeper unit with poly/steel brushes offering professional sweeping performance. Recirculation water system included.

3rd Side Brush (Poly Brushes)

With a 3rd brush for the suction sweeper, it is possible to sweep under and around obstacles, and it increases the working width. Poly brushes are used for finer and thorough sweeping.

ATTACHMENTS

EGHOLM CITY RANGER 3070

3rd Side Brush (Poly /Steel Brushes)

With a 3rd brush for the suction sweeper, it is possible to sweep under and around obstacles, and it increases the working width. Poly-/steel brushes are used for coarser sweeping. Stresses weeds.

Weed Brush (Soft)

The flat steel bristles agitates and removes weeds while being gentle on surfaces. Ideal for flagstones that are susceptible to marking and need regular weeding. The weed brush is the perfect, most-effective eco-friendly tool for keeping outdoor areas weed-free.

Weed Brush (Hard)

The hard weed brush is a mix of flat steel bristles and steel wires. This is for heavy work on bigger, stronger weeds. Ideal for flagstones and asphalt paths that need regular weeding. The weed brush is the perfect, most-effective eco-friendly tool for keeping outdoor areas weed-free.

ATTACHMENTS

EGHOLM CITY RANGER 3070

Rotary Mower 1500

More mowing in less time with the rotary mower 1500 - an innovative solution with its unique hydraulic features and specially developed blades.

Mulch Mower 1500

More mowing in less time with the mulch mower 1500 - an innovative solution with its unique hydraulic features.

Triplex Rotary Mower 2500

With a working width of 2.5 metre, the Egholm Triplex rotary mower 2500 can mow even the largest lawns in no time.

ATTACHMENTS

EGHOLM CITY RANGER 3070

Snow Sweeper

The snow sweeper is perfect when used with the first snow fall of winter.

Snow Plough (Steel Scraper)

The snow plough with steel scraper edge is a powerful snow clearer and copes with even large amounts of snow.

Snow Plough (Rubber Scraper)

The snow plough with Vulkollan scraper edge is a powerful snow clearer and copes with even large amounts of snow.

ATTACHMENTS

EGHOLM CITY RANGER 3070

Snow V-Plough (Steel Scraper)

Regardless of how heavy the snowfall has been, with a snow V-plough with steel scraper edge from Egholm, you can easily handle the removal of snow and make a good job of it.

Snow V-Plough (Rubber Scraper)

Regardless of how heavy the snowfall has been, with a snow V-plough with Vulkollan scraper edge from Egholm, you can easily handle the removal of snow and make a good job of it.

Salt and Sand Spreader

Winter weather and ice on the ground mean salt and sand. The salt and sand spreader for the City Ranger 3070 is perfect for this job.

WHO WE ARE

CLENLI DIRECT

Who Are Clenli Direct?

Founded in 1993, Clenli Direct is the leading provider of innovative cleaning solutions in Ireland. We offer innovative solutions for janitorial cleaning, cleaning machinery, cleaning robotics, window cleaning, carpet cleaning, and much more. Our expert team can install, maintain, and provide training for any cleaning equipment we provide.

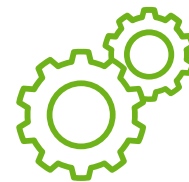

Based in Dublin 11, we are positioned in close proximity with all major roads in Ireland, including the M50, N7, M4, and M1. Through our prestige transport system, we have an exceptional record for delivering on time. We offer the best cleaning solutions to any requirements you may have, no matter how big or small. Contact us today to see what we can do for you!

OUR VALUES

Reliability

We value reliability. Through our location, our partnerships with UPS and DSV, and our own large fleet of in-house delivery trucks, we have an exceptional record for delivering on time.

Expertise

Our expertise is unmatched. Every member of our service team receives extensive training on new equipment so that they can answer your questions and offer solutions.

Innovation

We strive to always do better. We are always on the lookout for new innovative solutions for our clients cleaning requirements.

Quality

We understand the importance of quality. That is why every piece of equipment we provide has been sampled, tested, and handpicked by our team.
